IRISH QUOTE TEDDY

His Message to the Irish League

At Boston Called an International Event

Wm. O'Brien Gets Great Applause in Parliament

London, Oct. 22.—Turbulent scenes occurred in the House of Commons today. The Irish demanded the day to discuss Irish grievances. Campbell Bannerman, the Liberal leader, supported the demand, when Balfour emphatically replied that the Irish party were only a faction. Thomas O'Connor then excitedly arose to his feet and said the prime minister has used most insulting language to our party, who, we claim, represent a nation. The description of us as a faction is a deliberate insult to our country, whose civilization preceded and may succeed this country. In the tumult Wm. O'Brien, of Cork, gained a hearing, and said: "Had the prime minister observed that President Roosevelt had sent a friendly message to the Irish League convention in Boston, and does he dare make the announcement that England is disposed to learn wisdom as to Irish affairs from such an acknowledged great ruler as the President of the United States?" A tremendous uproar followed this remark. When O'Brien again gained a hearing he asked: "Will you allow me to submit that this message of the President is an international fact of first importance in future relations with the United States." The speaker vainly tried to stop the applause, which was prolonged for some time before order could be restored.

The speaker declared the question improper, and O'Brien then moved an adjournment of the house to discuss the question of future relations between Great Britain and the United States, as raised by Roosevelt's message. The speaker refused on the grounds that standing orders precluded a motion to adjourn.

The President's Letter.
Boston, Oct. 22.—The letter, which created such a scene in the British House of Commons today, was sent by Corley, and said: "While the President very much appreciates your cordial invitation, he regrets that public duties will prevent his being present. Owing to the pressure of time incident to the preparation of the annual message to Congress he is at present unable to accept any invitations."

Will Meet at Detroit.
Omaha, Oct. 22.—The Christian church convention today named Detroit as their next meeting place.

THE EARTH "DO MOVE"

French Astronomer Proves the Earth's Rotation

Paris, Oct. 22.—Five thousand people, including the most eminent scientists from all parts of the world, this afternoon witnessed Camille Flammarion's demonstration of the earth's rotation. This was the first attempt since Foucault's experiment in 1851. Flammarion swung a 60-pound weight from the dome of the Pantheon, hung from a wire 224 feet long. The deviation of the pendulum in the direction contrary to the earth's rotation was easily perceptible by the spectators, who wildly cheered. This is considered the greatest demonstration of popular astronomy ever given in modern times.

FAVORS EXTRA SESSION

In a letter addressed to the press, dated October 21st, Mr. Corbett says: In order that this subject may have the most careful consideration of our legislature, free from political bias, it is necessary that the appropriation should be made promptly and without the usual delay, that our sister states may see the faith that is within us, that they may also take prompt action and make adequate appropriation by their respective legislatures; also that our senators and representatives in politics may take prompt action and secure the necessary appropriation from the general government, as is fitting such an important national event.

For these reasons I favor an extra session of the legislature.

DR. DARRIN LEAVES NOVEMBER 1

After a Very Successful Visit to Salem Which Benefited Many Sufferers

The Doctor Has Been Prevailed On To Stop in Woodburn One Month

Dr. Darrin, the celebrated specialist, well-known throughout the Northwest, after a very successful visit in this city, in which hundreds of sufferers from all manner of diseases were relieved, and, in many cases, cured, will leave Salem November 1st, and stop in Woodburn at Hotel Woodburn until December 1st, there being numerous requests for his presence there by persons wishing to be treated by his electrical process.

Dr. Darrin has practiced in Paris, London, New York and Portland, and while abroad discovered certain remedies for several of the most dreaded diseases, and in the treatment of which he gives entire satisfaction. Numerous testimonials have appeared in this paper during the past six months from those who thought they owed it to the doctor, as well as hundreds of like sufferers, to speak of the good work that has been done for them.

Many of these are well-known to the editor, having been cured when the doctor was here years ago, having spent two months in this city, at which time we became favorably impressed with his good work.

Few doctors have had such a large practice as this physician who is visited by scores of people everywhere he stops, and it is well to note that the doctor is not out for money alone, as is proved by numerous cases of poor people he has cured, who are unable to pay for the restoration of their health.

The doctor owes his great success to the mysterious power of electricity, of which he has become so well versed. It cures many of the most hopeless cases, and relieves pain that every known remedy failed in, and can be substantiated by the evidence of hundreds who have been cured by Dr. Darrin.

We could say many more things, which we feel are due to this eminent physician, did space permit, but we simply try to say in a few words what many of the doctor's patients wish to say, and what our own personal observation has caused us to think.

WORKMEN BURNED ALIVE

In a Chicago Fire Last Night

Caught As In a Trap In the Upper Stories

Some Jumped From the Windows and Met Death

Chicago, Oct. 22.—With five known dead as the result of last night's fire of the Glucose Sugar Refining Company, efforts are being made today to cool the ruins sufficiently to permit the search for the bodies of the seven men who are also believed to have perished. Otto Trapp, Edward Sheinke, Andrew Wosilka are the only ones identified. The latter two were instantly killed by jumping from the fifth story. The others, who were injured by a similar jump, died at daylight this morning. All the injured are expected to recover.

Fire Due to Explosion.

The fire was the result of an explosion in the drying house, which is seven stories in height, and stands close to the main building of the plant, which is 14 stories high. A third structure is four stories high. The two smaller buildings were destroyed, and the larger building was badly damaged. The fire spread after the explosion with such rapidity that it was impossible for the men in the upper stories of the drying house to make their escape, and it is the number of men believed to have been at work on the seventh floor that causes the uncertainty in the list of dead. Some of the employees who made their escape say that there were 20 or 30, and others say there were not more than 10 when the fire broke out. Whatever the number, all are dead. Four men leaped from the uppermost floors, and all met death. The fifth in the list of dead is an electrician, who is known to have entered the building, and was there at the time of the fire. He is supposed to be dead, for the reason that all the firemen and laborers about the burned building say that no man made his escape from the upper floors.

Secretary Glass, of the refining company said at 2 o'clock this (Wednesday) morning that he estimated the loss at \$500,000.

VICTIM OF MYSTERIOUS ASSAULT

Dies Of Her Injuries—No Clue to the Assaultants

Washington, Oct. 22.—Mrs. Ada Dennis, the victim of a mysterious assault, which baffled the detectives since December 10th of last year, died at 4 o'clock this morning from the result of her injuries. Revenge was believed to be the motive, as a sum of money and \$1500 worth of diamonds were undisturbed in the room where Mrs. Dennis was found lying unconscious from repeated blows inflicted with a piano stool. The best detectives of America and Europe have been employed by wealthy friends, and have worked on the case unsuccessfully, but without results. The victim never fully regained consciousness, after the attack, so was unable to aid in the search for the perpetrators.

MANY ARE PRESENT

Interesting Discussions at the State Association of Congregational Churches.

The fifty-fourth annual convention of the Association of Congregational Churches, that is being held in this city, is largely attended, and the sessions offer some very interesting discussions.

The convention was organized on Tuesday afternoon by the election of the following officers: Moderator, Rev. Mac H. Wallace, of Eugene; assistant moderator, Rev. J. M. Dick, of Hubbard; scribe, Prof. J. R. Robertson, of Forest Grove; registrar, term of three years, Rev. Daniel Staver, of Forest Grove, re-elected.

On Tuesday evening the annual association sermon was preached by Rev. B. F. Jones, of the Hassalo-street church, of Portland. The services also included a few remarks by Mrs. A. P. Peck, a returned missionary from China.

Vaccination, as a preventative measure against the spread of smallpox at Eugene, is to be made compulsory on the pupils of the schools of that city.

Hop Contract to Be Tested.

The first contract of the Marion county circuit court has been adjourned until 1 p. m. Friday of this week, when the hop revenue case of A. F. Backhaus, a Wisconsin brewer, vs. F. W. Buell, a Silverton hop grower, will be up for trial. The case concerns a hop contract. It is alleged by the plaintiff that he contracted from the defendant the delivery of 10,000 pounds of this year's hop crop, at the stipulated price of 12 cents per pound, the hops to be delivered during the month of October. It is claimed that the defendant has refused to make the delivery, and the suit is brought to enforce a performance of the contract, or to recover the value of the hops which is estimated on a basis of 22 cents a pound, amounting to \$2200, with nominal damages alleged to have been suffered by the plaintiff by reason of the failure of the defendant to deliver the goods as called for in the contract. The case is one of great interest to both the growers and the buyers in this section, and the result will be watched with concern.

In the Supreme Court.

Henry St. Rayner, who is defendant in disbarment proceedings before the supreme court, had a hearing today. St. Rayner is charged with changing the official records of testimony in the McDaniel murder case in Portland, in which he was attorney for the defense.
